LCT MPRO Gen 5 Flare System

THE CORE OF CLEAN COMBUSTION
Engineered for a Smokeless Future

The LCT MPRO Gen 5 is built for today's emissions expectations and tomorrow's compliance challenges. Whether you're upgrading an aging site or designing for the future, this compact, fully enclosed flare delivers powerful performance with a small footprint, no external blower required.

Key Specs & Features

- 1 Flow Range:**
10,000 SCFD to 110 MMscfd
- 2 Footprint:**
46' x 72" base – perfect for tight retrofits
- 3 Installation:**
Quick setup, minimal downtime
- 4 Compatibility:**
Easily connects to existing risers/stacks and to any existing pipeline or facility tie in points
- 5 Improved Combustion:**
Safer, cleaner, and low-light and noise
- 6 No External Blower Needed:** Less maintenance, less power
- 7 Regulatory Ready:**
Meets/exceeds EPA Quad O / Oa
- 8 Ideal for Remote Sites:**
Designed for low-maintenance field deployment

Why It Matters

Slash emissions • Reduce visual impact • Avoid costly rebuilds
Future-proof your operations • Show your ESG commitment without compromise

Liberty Combustion is scheduling evaluations and demos now.
